

**Office of Comprehensive Services
Annual Report to the General Assembly**

***Residential Care: Utilization Rates and Average Length of Stay
Under the Comprehensive Services Act***

December 2012

Report Mandate

Language in the 2012 Appropriation Act, Chapter 2, Item 274 B.2.d, requires the following:

Pursuant to § 2.2-5200, Code of Virginia, Community Policy and Management Teams shall seek to ensure that services and funding are consistent with the Commonwealth's policies of preserving families and providing appropriate services in the least restrictive environment, while protecting the welfare of children and maintaining the safety of the public. Each locality shall submit to the Office of Comprehensive Services information on utilization of residential facilities for treatment of children and length of stay in such facilities. By December 15 of each year, the Office of Comprehensive Services shall report to the Governor and Chairmen of the House Appropriations and Senate Finance Committees on utilization rates and average lengths of stays statewide and for each locality.

Source of Information

Expenditure data included in this report are derived from local pool reimbursement requests. Demographic data are derived from "CSA Data Set" reports.

Background

The statutory purpose of the Comprehensive Services Act (CSA) is to create a system of services and funding for troubled youth and their families that is child centered, family focused, and community based. Increasing utilization of community based services to decrease reliance on restrictive, residential services is a key CSA performance measure.

Since 2008, several significant strategies have been implemented to decrease reliance on residential care as a service to youth. These strategies have included implementation of the *Children's Services System Transformation* initiative and implementation of a match rate system which provides financial incentive for local use of community based services.

In accordance with the CSA Service Categories and Data Set Definitions adopted by the State Executive Council, several different types of facilities are considered residential care. They include the following:

- **Residential Treatment Facilities:** Licensed residential care programs that provide 24-hour supervised care to groups of youth (e.g., secure residential treatment facilities, campus-style residential programs, group homes on the campus of a residential facility, and group homes that serve more than nine youth).

- **Group Homes:** Licensed residential programs that are characterized by a supervised homelike environment in a single family residence that serves groups of up to eight youth. Placements include apartments located in one complex where daily substitute parental supervision is provided and the programs are licensed as residential programs.
- **Temporary Care Facilities:** Licensed facilities or emergency shelters that serve groups of youth and are specifically approved to provide a wide range of services, as needed, on an individual basis not to exceed 90 days.

Funding

The funding for residential care for youth served under the CSA may come from several sources. Federal funds, i.e., Medicaid and Title IV-E, may be used in combination with CSA funds to share the cost of placement. The expenditures reported below reflect expenditures for residential care paid through the CSA state pool.

CSA Net Expenditures for Residential Care by Reporting Fund Category

	FY10	FY11	FY12
Foster Youth Eligible for IV-E	\$4,927,364	\$4,287,413	\$4,111,194
Foster Youth Not Eligible for IV-E	\$31,619,851	\$30,207,095	\$26,603,308
CSA and DSS Non-Custodial Parental Agreements	\$11,605,503	\$9,458,608	\$10,952,843
Non-Mandated Youth	\$2,984,157	\$2,868,145	\$2,395,202
TOTAL	\$51,136,875	\$46,821,261	\$44,062,547

*NOTE: Expenditures do **not** include the cost of educational services provided in the residential setting.*

Attachment A provides CSA net expenditures for residential care by locality.

Number of Children Served

The number of youth receiving residential care in each reporting service category is represented below:

Number of Youth Served by Residential Service Category

	FY10	FY11	FY12
Temporary Care Facility	93	190	187
Group Home	1,248	1,088	908
Residential Treatment Facility	1,331	1,269	1,233
TOTAL UNDUPLICATED COUNT	2,360	2,236	2,054

Youth placed in more than one residential service category are reflected in each setting.

Together the *Children's Services System Transformation* initiative and the match rate system have impacted upon the way in which services funded under the Comprehensive Services Act have been delivered to youth in the Commonwealth. While there has been increased use of Temporary Care Facilities, there has been a notable decrease in the total number of youth in residential care settings across the board. The rate of decrease has slowed. There was an

increase in expenditures for residential services in FY12 for youth placed through parental agreements (i.e., voluntary placement agreements between parents and child serving agencies).

Attachment B provides the total unduplicated number of youth receiving residential services by locality.

Length of Stay

The length of stay is determined based upon the number of days between the start date and the end date for which the service was funded.

Average Length of Stay (Number of Days) by Residential Care Setting

	FY10	FY11	FY12
Temporary Care Facility	131	82	105
Group Home	176	171	167
Residential Treatment Facility	170	166	183
TOTAL LENGTH OF STAY IN RESIDENTIAL PER YOUTH*	193	184	153

**Reflects average number of days across all residential settings when youth was in more than one setting.*

Attachment C provides the average number of days in residential care for youth by locality.
