# Objectives

- **To be able to better understand our role in implementing the guiding principles through the lives of superheroes.**
- **How we as facilitators can use pop culture in working with our families.**
- **To gain a better understanding of what our families are experiencing and how we can apply the Principles in our work with families.**

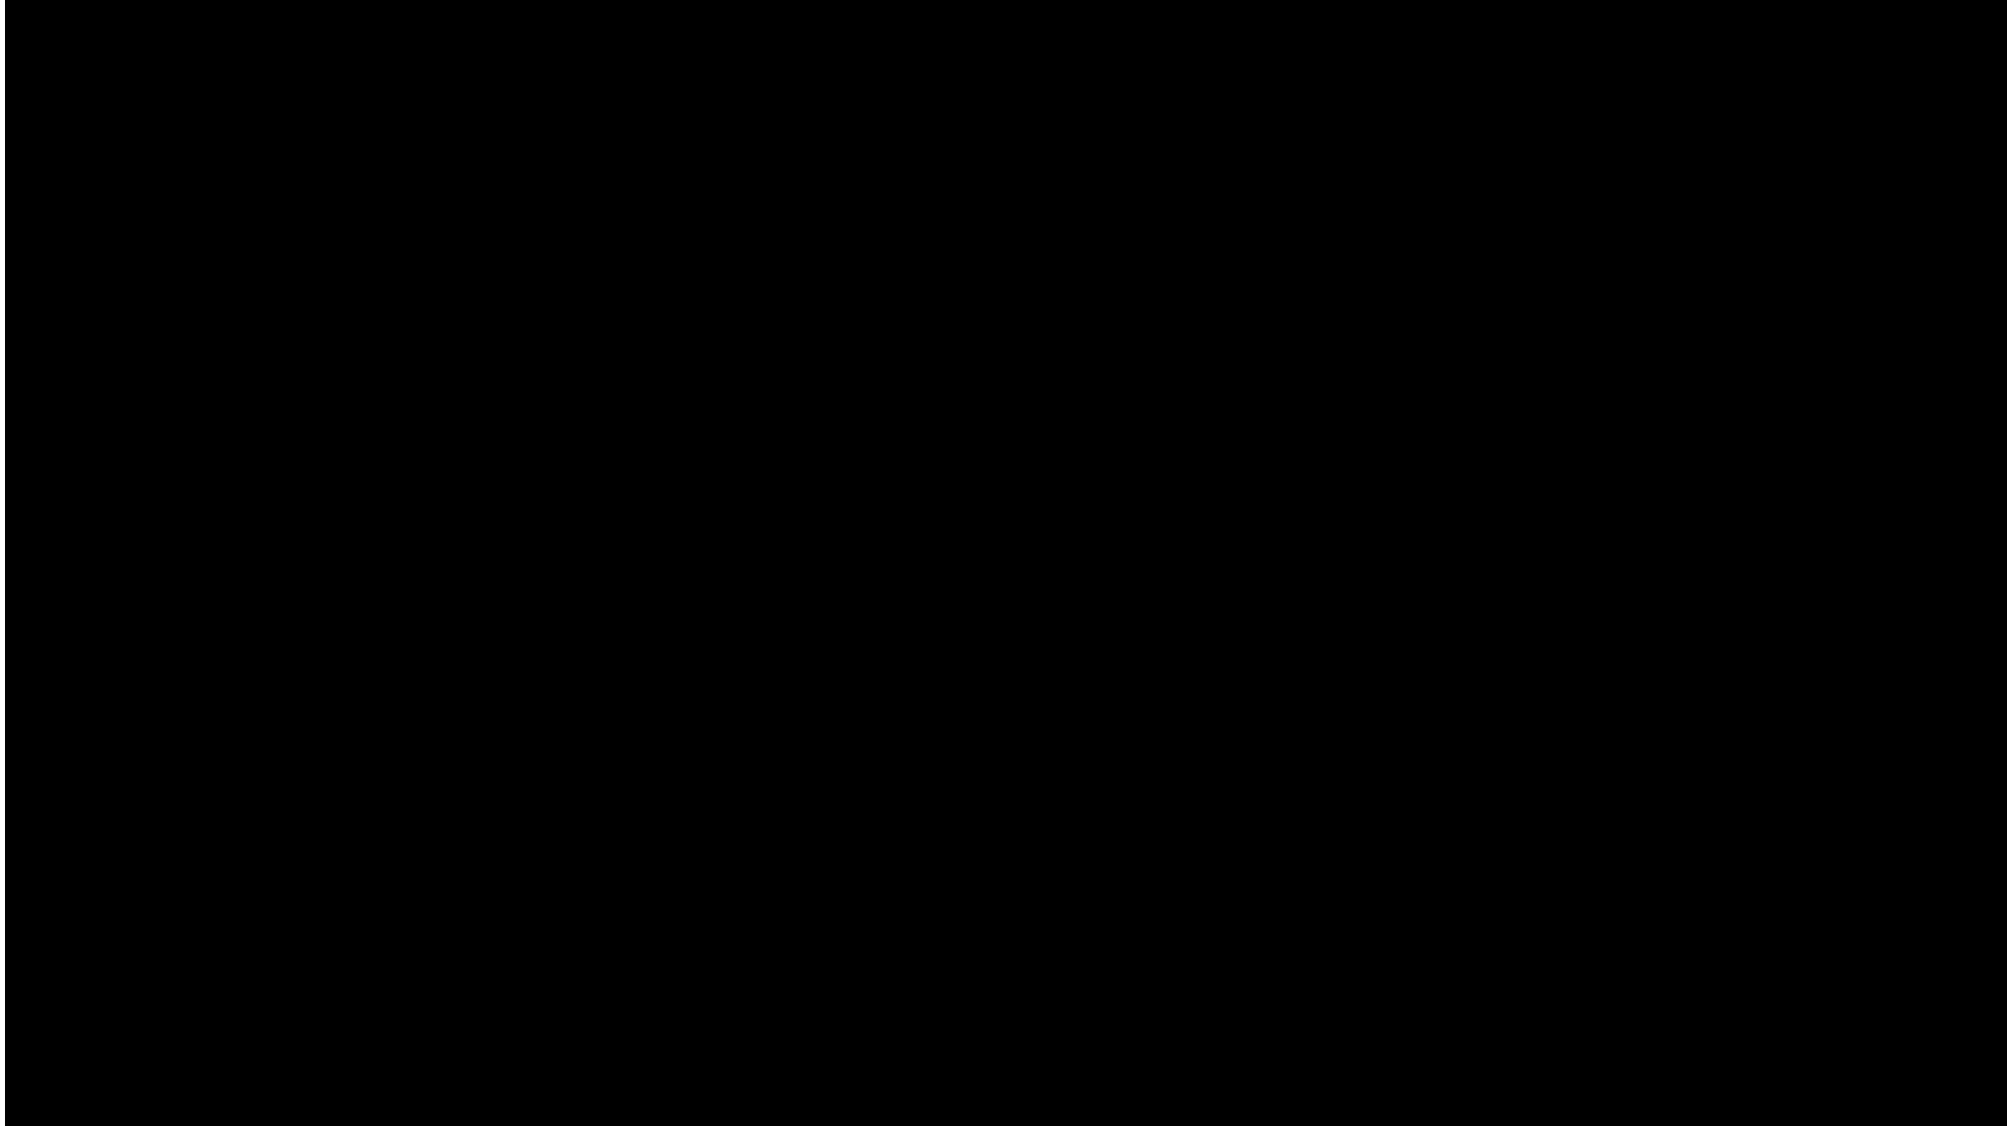

# Guiding Principles

# Family Voice & Choice

Family and youth/child perspectives are intentionally elicited and prioritized during all phases of the wraparound process. Planning is grounded in family members' perspectives, and the team strives to provide options and choices such that the plan reflects family values and preferences.

# *Youth Voice*

# Natural Supports

The team actively seeks out and encourages the full participation of team members drawn from family members' networks of interpersonal and community relationships. The wraparound plan reflects activities and interventions that draw on sources of natural support.

# Team Based

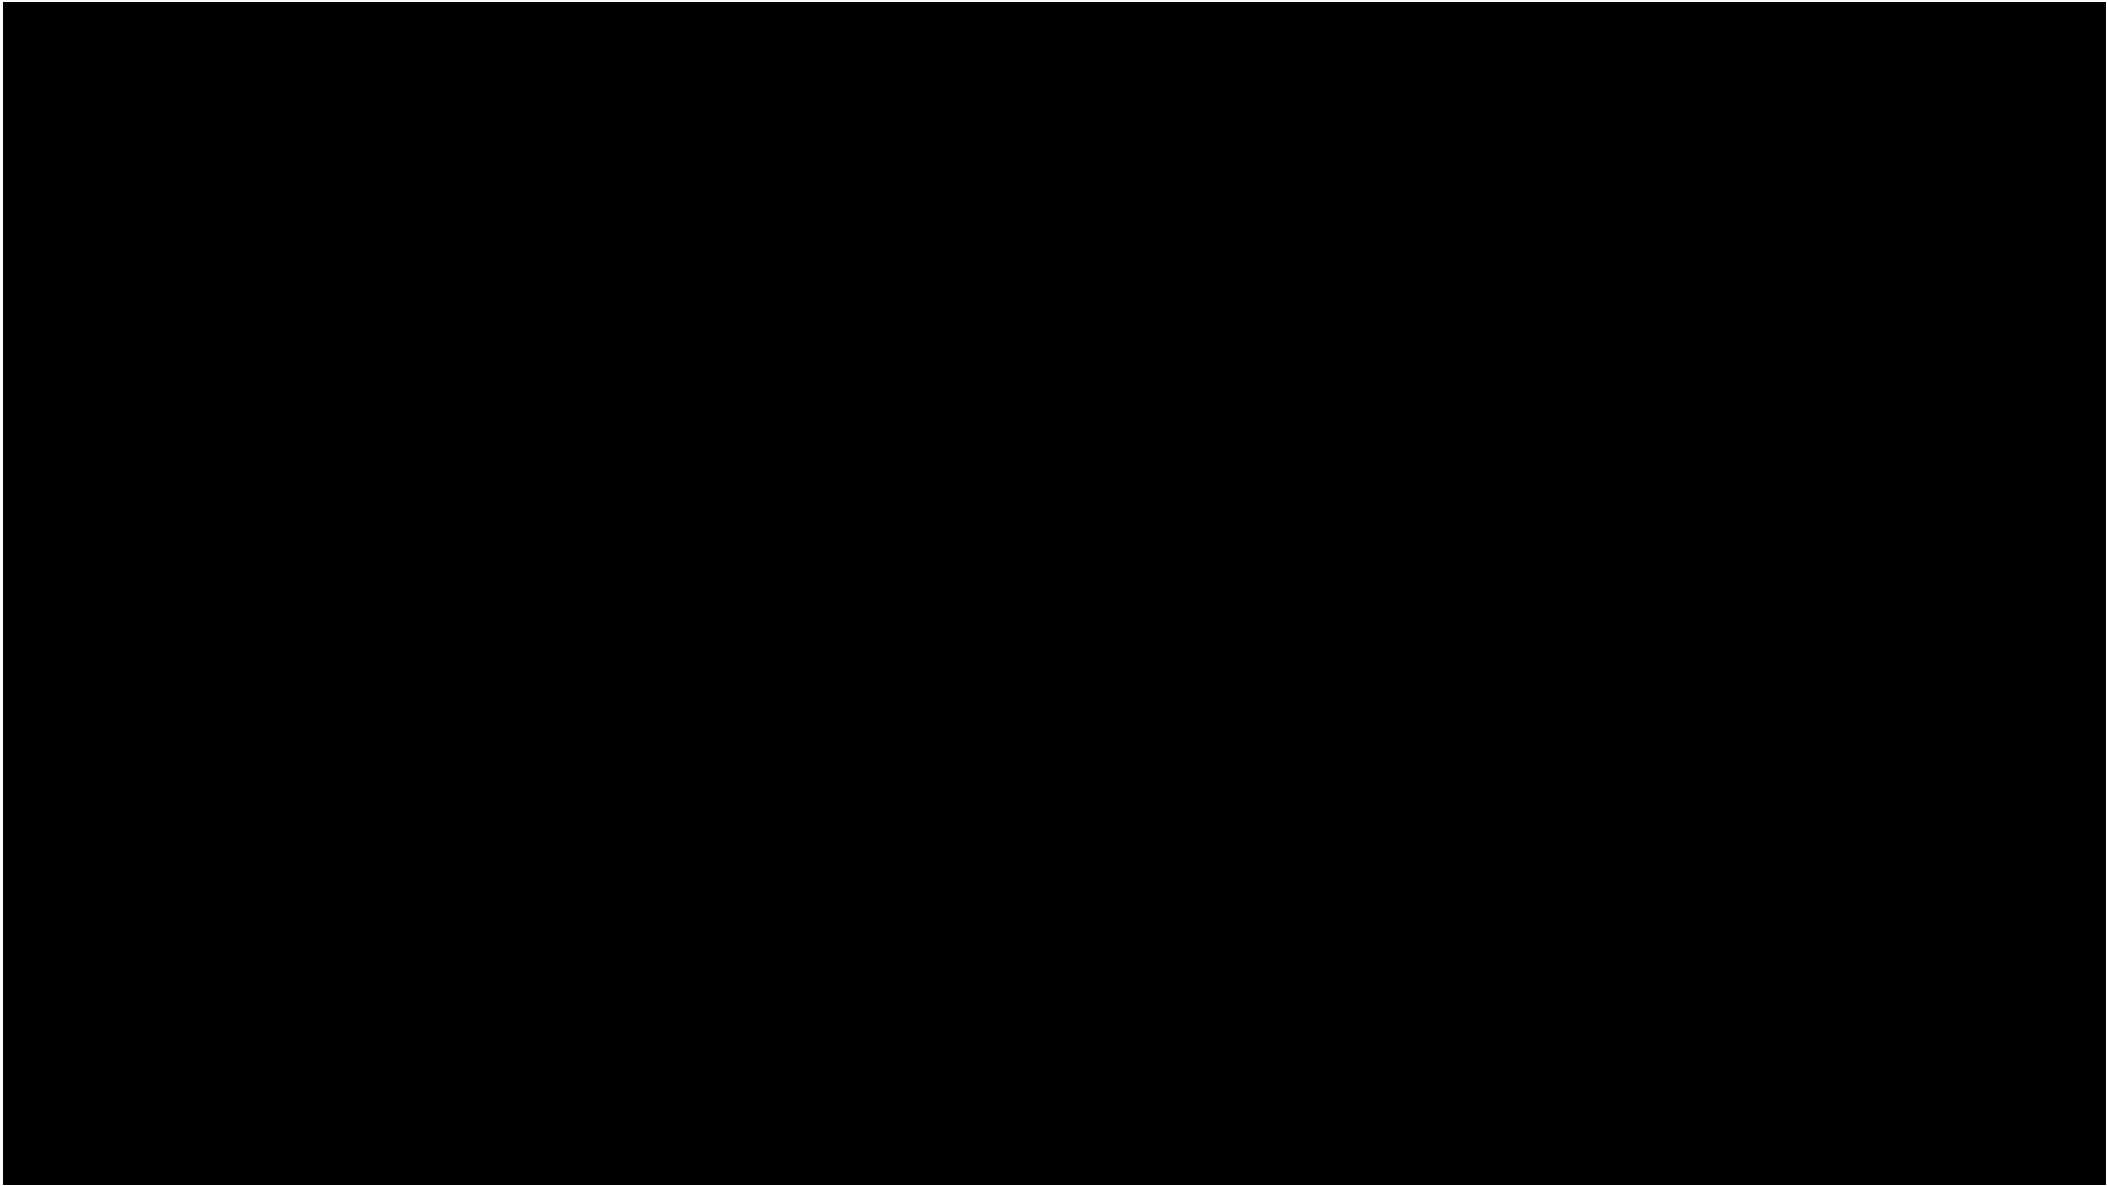

The wraparound team consists of individuals agreed upon by the family and committed to them through informal, formal, and community support and service relationships.

# Collaboration

Team members work cooperatively and share responsibility for developing, implementing, monitoring, and evaluating a single wraparound plan. The plan reflects a blending of team members' perspectives, mandates, and resources. The plan guides and coordinates each team member's work towards meeting the team's goals.

# Culturally Competent

The wraparound process demonstrates respect for and builds on the values, preferences, beliefs, culture, and identity of the child/youth and family, and their community.

# Community Based

The wraparound team implements service and support strategies that take place in the most inclusive, most responsive, most accessible, and least restrictive settings possible; and that safely promote child and family integration into home and community life.

# Persistence

Despite challenges, the team persists in working toward the goals included in the wraparound plan until the team reaches agreement that a formal wraparound process is no longer required.

# Outcome Based

The team ties the goals and strategies of the wraparound plan to observable or measurable indicators of success, monitors progress in terms of these indicators, and revises the plan accordingly.

# Individualized

To achieve the goals laid out in the wraparound plan, the team develops and implements a customized set of strategies, supports, and services.

# Strength Based

The wraparound process and the wraparound plan identify, build on, and enhance the capabilities, knowledge, skills, and assets of the child and family, their community, and other team members.

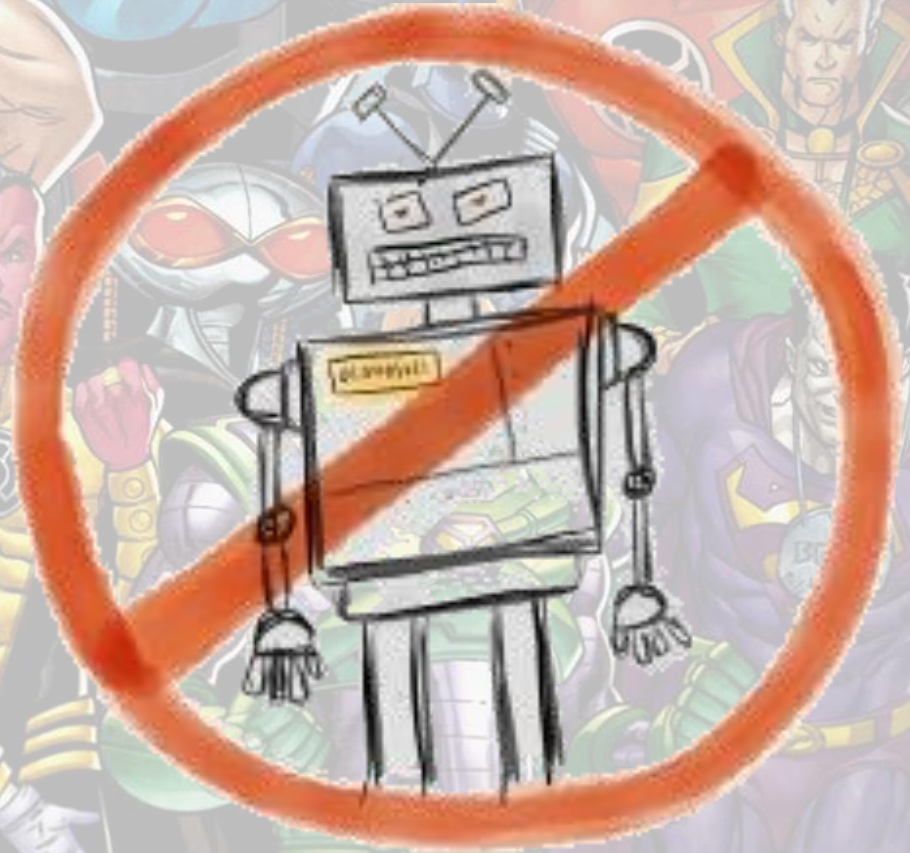

# Villains?

- When we get in our own way we are not the superhero.
- In fact, we can become Wrap Robots
